About Strategic Investments

The LISC Strategic Investments team leads the design, development, and deployment of impact investment funds in LISC’s local markets nationwide. Strategic Investments employs an “impact first” investment methodology that optimizes the impact on the communities we care about while achieving sustainable risk-adjusted returns for investors.

The unique power of LISCs local office presence combined with the strength of our national investment expertise is a powerful combination for creating real impact in the communities we serve. This network requires careful coordination between Strategic Investments, the LISC Local Offices, and other stakeholders within LISC. While many groups within the LISC organization support fund management activities, the Strategic Investments team is ultimately responsible for ensuring a successful track record for LISC’s off balance sheet fund investments.
